BUDT 758T
Final Project Report
Spring 2023

STEPS TO RUN THE CODE FILES

Steps for Linear and Logistic Regression–
1. Run "File 1 – Feature Extraction.R" in base folder.
2. Run "Linear and Logistic" Folder.

Steps for Random Forest–
1. Open Random Forest folder.
2. Run "File 1 – Feature Extraction.R".
3. Run "File 2 – Random Forest External Dataset" for external data.
4. Run "File 3 - Random Forest Original Dataset" for original data.

Steps for Ridge and Lasso–
1. Run "File 1 – Feature Extraction.R" in base folder.
2. Run "Ridge and Lasso" folder.

Steps for XGBoost–
1. Run "File 1 – Feature Extraction.R" in base folder.
2. Run "XGBoost" folder.
